

1 **In the Claims**

2 Claims 18-21 were pending at the time of the Office Action.

3 Claims 18-21 are rejected.

4 No claims are amendeded or canceled by the current response.

5 Accordingly, claims 18-21 remain pending.

6 A complete listing of the pending claims is provided below for convenience
7 and to indicate the current status of the claims:

8
9 **Claims 1 - 17.** (Canceled)

10
11 **Claim 18.** (Previously presented) In a computer system having a
12 display device for rendering a graphical user interface of a Web browser
13 displaying Web page content in a browser pane and having at least one speaker for
14 playing a first source of streaming media, said graphical user interface comprising
15 a radio toolbar for displaying at least one button capable of controlling said first
16 source of streaming media irrespective of the Web page content being browsed.

17
18 **Claim 19.** (Previously presented) In a computer system having a
19 display device for rendering a graphical user interface of a Web browser
20 displaying Web page content in a browser pane and having at least one speaker for
21 playing a first source of streaming media, said graphical user interface comprising:

22 a) a radio toolbar displaying a plurality of radio-toolbar buttons for
23 controlling said first source of streaming media irrespective of the Web page
24 content being browsed, said plurality of radio-toolbar buttons including:
25

- i) a play button for instructing the Web browser to play the first source of streaming media;
 - ii) a mute button for instructing the Web browser to silence the first source of streaming media;
 - iii) a volume slider for controlling a volume of the first source of streaming media played over the speaker;
 - iv) a radio-stations button allowing user selection of the first source of streaming media; and
 - v) an information area displaying information about the first source of streaming media;
- b) at least one explorer bar for providing a display area adjacent to the browser pane, said at least one explorer bar capable of displaying information and allowing user interaction;
- c) a menu bar for allowing user control of the Web browser and the Web page, the menu bar including a plurality of menu entries selected from the group consisting of: File, Edit, View, Favorites, Tools and Help;
- d) a navigation toolbar that allows user navigation of the Web page, the navigation toolbar including a plurality of navigation-toolbar buttons selected from the group consisting of: Back, Forward, Stop, Refresh, Home, Search, History, Print, Mail and Edit;
- e) an address bar identifying an address for the Web page being displayed by the Web browser in the browser pane; and
- f) a status bar showing a current status for the Web page.

1 **Claim 20.** (Previously presented) In a computer system having a
2 display device for rendering a graphical user interface of a Web browser
3 displaying Web page content in a browser pane and having at least one speaker for
4 playing a first source of streaming media, said graphical user interface comprising
5 at least one explorer bar for providing a display area adjacent to the browser pane,
6 said at least one explorer bar being registered with the Web browser as a band
7 object, said at least one explorer bar allowing user input regarding the first source
8 of streaming media irrespective of the Web page content present in the browser
9 pane.

10
11 **Claim 21.** (Previously presented) A computer-readable medium
12 having computer-executable components comprising:

- 13 a) a radio server component for playing a radio source of streaming
14 media irrespective of content being displayed in a simultaneously
15 used Web browser;
- 16 b) an interfacing component for communicating with the radio server
17 component; and
- 18 c) at least one radio client component communicating through the
19 interfacing component in order to provide instructions to the radio
20 server component regarding the radio source of streaming media.
